

# La SARL LAN NET Solutions gagne OptiFiber Pro grâce au programme de récompenses de LinkWare Live

---

## Aperçu général

**Client :** LAN NET Solutions, LLC

**Industry:** Telecommunications

**Location:** Texas

### Historique de l'entreprise :

LAN NET Solutions, basée au Texas, est le vainqueur du programme de récompense de Fluke Networks [LinkWare Live](#). Comme le dit l'adage, tout est plus grand au Texas et la récompense [OptiFiber Pro](#) que LAN NET Solutions a remporté est une énorme récompense.

LAN NET Solutions, LLC provides structured cabling installation solutions to support existing and emerging technologies for voice and data applications. The company, which was founded in 2013, is proud to offer its business and residential customers in Texas and the southwest high quality, honest answers to all of their cabling needs.

## Défis

Jim Bringolf, President of LAN NET Solutions, finds that using [LinkWare Live](#) helps the company save time in several ways. One of capabilities the company appreciates is being able to create tests in advance, making the certification process much quicker once they are on-site. Uploading test results from job sites is also faster and easier with [LinkWare Live](#).

## Solution

[LinkWare Live](#) cuts costs and prevents errors by letting project managers check on testing progress, without being physically present. "That was one things we were really excited about when we were working on a big project recently," said Scott Hooks VP and Owner. "We had a total of 8000 tests for this particular job, and we were able to set up and name all of the tests ahead of time. Then, while testing was underway, we could check to see what percentage was done while we were sitting in the office."

## Le résultat

[LinkWare Live](#) was introduced by Fluke Networks late in 2014. It's a cloud-based service that works with Fluke Networks Versiv testers, including DSX-5000, [OptiFiber Pro](#) and [CertiFiber Pro](#) certification testers. The [LinkWare Live](#) platform allows users to upload, manage and analyze complex certification test results from anywhere. To date, more than one million test results have been uploaded to the [LinkWare Live](#) platform by Fluke Networks customers.

## À propos de Fluke Networks

Fluke Networks est le numéro un mondial dans les domaines de la certification, du dépannage et des outils d'installation pour les professionnels de l'installation et de la maintenance d'infrastructures de câblage réseau stratégiques. De l'installation de centres de données les plus avancés à la restauration de services dans des conditions difficiles, nous allions fiabilité exceptionnelle et performances inégalées pour des tâches réalisées de manière efficace. Les produits phares de la société incluent l'innovant LinkWare™ Live, première solution au monde de certification de câble connectée sur le cloud, avec plus de quatorze millions de résultats téléchargés à ce jour.
